Report on Internal Control Over Financial Reporting

The Association’s principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association’s Consolidated Financial Statements. For purposes of this report, “internal control over financial reporting” is defined as a process designed by, or under the supervision of the Association’s principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association’s assets that could have a material effect on its Consolidated Financial Statements.

The Association’s management has completed an assessment of the effectiveness of internal control over financial reporting as of March 31, 2024. In making the assessment, management used the framework in *Internal Control — Integrated Framework (2013)*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the “COSO” criteria.

Based on the assessment performed, the Association’s management concluded that as of March 31, 2024, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association’s management determined that there were no material weaknesses in the internal control over financial reporting as of March 31, 2024.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of Farm Credit of the Virginias, ACA (Association) for the three months ended March 31, 2024, with comparisons to prior periods. These comments should be read in conjunction with the accompanying financial statements, notes to the financial statements and the 2023 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio is diversified over a range of agricultural commodities including livestock, timber, poultry, field crops, and also includes part-time farmer and rural home loans. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, impacts the level of dependency on a given commodity.

The total loan volume of the Association as of March 31, 2024, was \$2,169,865, a decrease of \$7,138 as compared to \$2,177,003 at December 31, 2023. The decrease in gross loan volume during the reporting period was due to the normal seasonal decrease in working capital loans to farmers.

ASSET QUALITY AND LOAN LOSS RESERVES

There is an inherent risk in the extension of any type of credit. Portfolio credit quality continues to be maintained at an acceptable level and credit administration remains satisfactory. Nonaccrual loans decreased from \$26,557 at December 31, 2023, to \$25,305 at March 31, 2024. As a percent of total loans, nonaccrual loans were 1.17% and 1.22% at March 31, 2024 and December 31, 2023, respectively. The decrease in nonaccrual loans was attributable to the Association's continued collection of loan repayments and reinstatement of loans to accrual status, partially offset by loans transferred to nonaccrual status during the first three months of 2024.

Association management maintains an allowance for credit losses in an amount considered sufficient to absorb estimated current and expected credit losses over the financial assets expected life. The most significant component of the Association's allowance for credit losses is the allowance for loan losses. The allowance for loan losses at March 31, 2024, was \$5,515 or 0.25% of total loans compared to \$5,362 or 0.25% of total loans at December 31, 2023, and is considered by management to be adequate to cover estimated current and expected losses within the loan portfolio. See further detail on the Association's allowance for credit losses within the Association's Annual Report and discussion of significant provision for credit loss within the *Results of Operations* below.

RESULTS OF OPERATIONS

The Association's primary source of funding is provided by AgFirst Farm Credit Bank (the Bank) in the form of notes payable. See *Funding Sources* section below for additional detail on this relationship. Prior to January 1, 2024, the rate applied to the notes payable to the Bank was intended to cover the Association's share of technology and software services provided by the Bank. Effective January 1, 2024, the Bank modified the methodology used to determine the rate applied to the Association's note payable to the Bank to exclude the Association's share of technology and software services and began billing the Association for these services separately. This change will have a minimal effect on the Association's net income but effectively reclassifies the Association's technology and software costs paid to the Bank from interest expense to noninterest expenses. If the new methodology had been in effect during 2023, the Association would have recorded a reduction in interest expense and corresponding increase of noninterest expense of \$1,354 for the three months ended March 31, 2023 as shown in the following table.

	For the three months ended	
	March 31, 2024	March 31, 2023*
Interest Income	\$ 31,387	\$ 27,530
Interest Expense	14,916	11,966
Net Interest Income	16,471	15,564
Provision for Credit Losses	320	673
Noninterest Income	4,018	3,292
Noninterest Expense	10,421	10,527
Provision for Income Taxes	—	19
Net Income	\$ 9,748	\$ 7,637
Net Interest Margin	3.12%	3.04%
Operating Efficiency Ratio	50.85	55.81

*reflects the pro-forma results if the revised notes payable rate methodology had been in effect during 2023

Net income for the three months ended March 31, 2024, was \$9,748, an increase of \$2,111 as compared to net income of \$7,637 for the same period ended in 2023. This increase was primarily attributable to increased net interest income.

For the three months ended March 31, 2024, net interest income was \$16,471, an increase of \$2,260 as compared to \$14,211 for the same period ended in 2023. The increase in net interest income was primarily the result of the change in the rate applied to notes payable discussed above.

The provision for credit losses for the three months ended March 31, 2024, was \$320, a decrease of \$353 from the provision for credit losses of \$673 for the same period ended during the prior year.

Noninterest income increased \$726 to \$4,018 during the first three months of 2024 compared with the first three months of 2023 primarily due to increased gain on sale of premises and equipment and an increased patronage refunds from other Farm Credit institutions.

During the first three months of 2024, noninterest expense increased \$1,247 to \$10,421 compared with the first three months of 2023, primarily due to the change in the rate applied to notes payable discussed above.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with AgFirst Farm Credit Bank (the Bank) through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at March 31, 2024, was \$1,688,449 as compared to \$1,709,056 at December 31, 2023.

CAPITAL RESOURCES

Total members' equity at March 31, 2024, was \$496,854, an increase of \$9,788 from a total of \$487,066 at December 31, 2023. This increase in members' equity was primarily attributed to comprehensive income of \$9,748 recorded during the first three months of 2024. Total capital stock and participation certificates were \$10,904 on March 31, 2024, compared to \$10,864 on December 31, 2023.

FCA sets minimum regulatory capital requirements with a capital conservation buffer for System banks and associations. Capital adequacy is evaluated using a number of regulatory ratios.

The following sets forth the regulatory capital ratios:

	Regulatory Minimum Including Buffer*	3/31/24	12/31/23	3/31/23
Permanent Capital Ratio	7.00%	20.31%	20.90%	21.31%
Common Equity Tier 1 (CET1) Capital Ratio	7.00%	20.21%	20.84%	21.23%
Tier 1 Capital ratio	8.50%	20.21%	20.84%	21.23%
Total Regulatory Capital Ratio	10.50%	20.47%	21.15%	21.50%
Tier 1 Leverage Ratio**	5.00%	20.97%	21.55%	21.88%
Unallocated Retained Earnings (URE) and URE Equivalents	1.50%	20.47%	21.06%	21.37%

**Include full capital conservation buffers.*

***The Tier 1 Leverage Ratio must include a minimum of 1.50% of URE and URE equivalents.*

If the capital ratios fall below the minimum regulatory requirements, including the buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval. For all periods presented, the Association exceeded minimum regulatory requirements for all of the ratios.

REGULATORY MATTERS

On February 8, 2024, the FCA approved a final rule to amend its regulatory capital requirements to define and establish risk-weightings for High Volatility Commercial Real Estate (HVCRE) by assigning a 150 percent risk-weighting to such exposures, instead of the current 100 percent to reflect their increased risk characteristics. The rule further ensures comparability between FCA's risk-weightings and the federal banking regulators. The final rule excludes certain acquisition, development, and construction loans that do not present as much risk and therefore do not warrant the risk weight for HVCRE. In addition, the final rule adds an exclusion for loans originated less than \$500,000. The final rule will become effective on January 1, 2025.

On October 12, 2023, the Farm Credit Administration approved a final rule governing the Farm Credit System's service to young, beginning, and small (YBS) farmers and ranchers. The rule requires banks that fund the direct-lender associations to annually review and approve the association YBS programs. The rule also requires a direct-lender association to enhance the strategic plan of its YBS program. The strategic plan must contain specific elements that will be evaluated as part of a rating system to measure year-over-year internal progress, which would allow the Farm Credit Administration to compare the success of the direct-lender association's YBS program. The final rule became effective on February 14, 2024.

On October 5, 2023, the Farm Credit Administration approved a final rule on cyber risk management that requires each System institution to develop and implement a comprehensive, written cyber risk management program. Each institution's cyber risk plan must require the institution to take the actions to assess internal and external risk factors, identify potential system and software vulnerabilities, establish a risk management program for the risks identified, develop a cyber risk training program, set policies for managing third-party relationships, maintain robust internal controls and establish board reporting requirements. The final rule will become effective on January 1, 2025.

NOTE: Shareholder investment in the Association is materially affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 2764, or writing Matthew Miller, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, www.agfirst.com. Copies of the Association's annual and quarterly reports are also available upon request free of charge by calling 540-886-3435, ext. 5040, or writing Justin Weekley, Farm Credit of the Virginias, ACA, P.O. Box 899, Staunton, VA 24402, or accessing the website, www.farmcreditofvirginias.com. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

Notes to the Consolidated Financial Statements

*(dollars in thousands, except as noted)
(unaudited)*

Note 1 — Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements

Organization

The accompanying financial statements include the accounts of Farm Credit of the Virginias, ACA and its Production Credit Association (PCA) and Federal Land Credit Association (FLCA) subsidiaries (collectively, the Association). Descriptions of the organization and operations, the significant accounting policies followed, and the financial condition and results of operations for the Association as of and for the year ended December 31, 2023, are contained in the 2023 Annual Report to Shareholders. These unaudited interim consolidated financial statements should be read in conjunction with the latest Annual Report to Shareholders.

Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair statement of results for the periods presented. These adjustments are of a normal recurring nature, unless otherwise disclosed.

Certain amounts in the prior period's consolidated financial statements have been reclassified to conform to the current period presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The results of any interim period are not necessarily indicative of those to be expected for a full year.

Significant Accounting Policies

The Association's accounting and reporting policies conform with U.S. generally accepted accounting principles (GAAP) and practices in the financial services industry. To prepare the financial statements in conformity with GAAP, management must make estimates based on assumptions about future economic and market conditions (for example, unemployment, market liquidity, real estate prices, etc.) that affect the reported amounts of assets and liabilities at the date of the financial statements, income and expenses during the reporting period, and the related disclosures. Although these estimates contemplate current conditions and expectations of change in the future, it is reasonably possible that actual conditions may be different than anticipated, which could materially affect results of operations and financial condition.

Management has made significant estimates in several areas, including loans and allowance for credit losses (Note 2, *Loans and Allowance for Credit Losses*) and financial instruments (Note 5, *Fair Value Measurement*). Actual results could differ from those estimates.

For further details of significant accounting policies, see Note 2, *Summary of Significant Accounting Policies*, from the latest Annual Report.

Recently Issued or Adopted Accounting Pronouncements

In December 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-09 - Income Taxes: Improvements to Income Tax Disclosures. The amendments in this standard require more transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The amendments in this standard require qualitative disclosure about specific categories of reconciling items and individual jurisdictions that result in a significant difference between the statutory tax rate and the effective tax rate. The amendments are effective for annual periods beginning after December 15, 2025. The adoption of this guidance is not expected to have a material impact on the Association's financial condition, results of operations or cash flows.

Note 2 — Loans and Allowance for Credit Losses

A summary of loans outstanding at period end follows:

	March 31, 2024	December 31, 2023
Real estate mortgage	\$ 1,685,309	\$ 1,690,380
Production and intermediate-term	317,355	316,864
Agribusiness:		
Loans to cooperatives	135	113
Processing and marketing	71,466	69,907
Farm-related business	18,597	17,668
Rural infrastructure:		
Communication	11,459	11,387
Power and water/waste disposal	4,655	11,000
Rural residential real estate	60,415	59,687
Other:		
International	474	(3)
Total loans	<u>\$ 2,169,865</u>	<u>\$ 2,177,003</u>

A substantial portion of the Association's lending activities is collateralized, and exposure to credit loss associated with lending activities is reduced accordingly. The Association may purchase or sell participation interests with other parties in order to diversify risk, manage loan volume, and comply with FCA regulations.

The following table shows loans, classified under the FCA Uniform Loan Classification System, as a percentage of total loans by loan type as of:

	March 31, 2024	December 31, 2023
Real estate mortgage:

Total	<u>\$ 23,391</u>	<u>\$ 5,956</u>	<u>\$ 29,347</u>	<u>\$ 2,147,656</u>	<u>\$ 2,177,003</u>	<u>\$ –</u>

The following tables provide the amortized cost for nonaccrual loans with and without a related allowance for loan losses as of:

March 31, 2024			
	Amortized Cost with Allowance	Amortized Cost without Allowance	Total
Nonaccrual loans:			
Real estate mortgage	\$ 244	\$ 11,285	\$ 11,529
Production and intermediate-term	1,432	2,263	3,695
Agribusiness	46	9,454	9,500
Rural residential real estate	–	581	581
Total	<u>\$ 1,722</u>	<u>\$ 23,583</u>	<u>\$ 25,305</u>

December 31, 2023			
	Amortized Cost with Allowance	Amortized Cost without Allowance	Total
Nonaccrual loans:			
Real estate mortgage	\$ 517	\$ 11,292	\$ 11,809
Production and intermediate-term	1,517	2,781	4,298
Agribusiness	56	9,773	9,829
Rural residential real estate	–	621	621
Total	<u>\$ 2,090</u>	<u>\$ 24,467</u>	<u>\$ 26,557</u>

The Association recognized \$295 and \$273 of interest income on nonaccrual loans during the three months ended March 31, 2024 and March 31, 2023, respectively.

Reversals of interest income on loans that moved to nonaccrual status were not material for the three months ended March 31, 2024 and March 31, 2023.

A summary of changes in the allowance for credit losses is as follows:

	March 31, 2024
Allowance for Loan Losses:	
Balance at December 31, 2023	\$ 5,362
Charge-offs	(118)
Recoveries	7
Provision for loan losses	264
Balance at March 31, 2024	<u>\$ 5,515</u>

Allowance for Unfunded Commitments:	
Balance at December 31, 2023	\$ 468
Provision for unfunded commitments	56
Balance at March 31, 2024	<u>\$ 524</u>
Total allowance for credit losses	<u>\$ 6,039</u>

	March 31, 2023
Allowance for Loan Losses:	
Balance at December 1, 2022	\$ 17,318
Cumulative effect of a change in accounting principle	(11,758)
Balance at January 1, 2023	<u>\$ 5,560</u>
Charge-offs	(9)
Recoveries	96
Provision for loan losses	669
Balance at March 31, 2023	<u>\$ 6,316</u>

Allowance for Unfunded Commitments:	
Balance at December 31, 2022	\$ —
Cumulative effect of a change in accounting principle	224
Balance at January 1, 2023	<u>\$ 224</u>
Provision for unfunded commitments	4
Balance at March 31, 2023	<u>\$ 228</u>
Total allowance for credit losses	<u>\$ 6,544</u>

Loan modifications may be granted to borrowers experiencing financial difficulty. Qualifying disclosable modifications are one, or a combination of, principal forgiveness, interest rate reduction, or a term or payment extension. Covenant waivers and modifications of contingent acceleration clauses are not considered term extensions. Modified loans to borrowers experiencing financial difficulty and activity on these loans were not material during the three months ended March 31, 2024. There were no material commitments to lend to borrowers experiencing financial difficulty whose loans have been modified at March 31, 2024.

Loans held for sale were \$0 and \$75 at March 31, 2024 and December 31, 2023, respectively. Such loans are carried at the lower of cost or fair value.

Note 3 — Investments

Equity Investments in Other Farm Credit System Institutions

Equity investments in other Farm Credit System institutions are generally nonmarketable investments consisting of stock and participation certificates, allocated surplus, and reciprocal investments in other institutions regulated by the FCA. These investments are carried at cost and evaluated for impairment based on the ultimate recoverability of the par value rather than by recognizing temporary declines in value.

Associations are required to maintain ownership in AgFirst (AgFirst or the Bank) in the form of Class B or Class C stock as determined by the Bank. The Bank may require additional capital contributions to maintain its capital requirements. The Association owned 6.45 percent of the issued stock and allocated retained earnings of the Bank as of March 31, 2024 net of any reciprocal investment. As of that date, the Bank's assets totaled \$44.3 billion and shareholders' equity totaled \$1.7 billion. The Bank's earnings were \$66 million for the first three months of 2024. In addition, the Association held \$975 in investments related to other Farm Credit institutions.

Note 4 — Members' Equity

Accumulated Other Comprehensive Income (AOCI)

	Changes in Accumulated Other Comprehensive Income by Component (a)	
	Three Months Ended March 31,	
	2024	2023
Employee Benefit Plans:		
Balance at beginning of period	\$ (22)	\$ (20)
Other comprehensive income before reclassifications	—	—
Amounts reclassified from AOCI	—	—
Net current period other comprehensive income	—	—
Balance at end of period	\$ (22)	\$ (20)

	Reclassifications Out of Accumulated Other Comprehensive Income (b)		
	Three Months Ended March 31,		
	2024	2023	Income Statement Line Item
Defined Benefit Pension Plans:			
Periodic pension costs	\$ —	\$ —	Salaries and employee benefits
Net amounts reclassified	\$ —	\$ —	

(a) Amounts in parentheses indicate debits to AOCI.

(b) Amounts in parentheses indicate debits to profit/loss.

Note 5 — Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability.

Accounting guidance establishes a hierarchy for disclosure of fair value measurements to maximize the use of observable inputs, that is, inputs that reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the hierarchy tiers is based upon the lowest level of input that is significant to the fair value measurement.

The classifications within the fair value hierarchy are as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets; quoted prices in markets that are not active; and inputs that are observable, or can be corroborated, for substantially the full term of the asset or liability.

Level 3 inputs are unobservable and supported by little or no market activity. Valuation is determined using pricing models, discounted cash flow methodologies, or similar techniques, and could include significant management judgment or estimation. Level 3 assets and liabilities also could include instruments whose price has been adjusted based on dealer quoted pricing that is different than the third-party valuation or internal model pricing.

For a complete discussion of the inputs and other assumptions considered in assigning various assets and liabilities to the fair value hierarchy levels, see the latest Annual Report to Shareholders.

There were no Level 3 assets or liabilities measured at fair value on a recurring basis for the periods presented. The Association had no transfers of assets or liabilities into or out of Level 1 or Level 2 during the periods presented.

Fair values are estimated at each period end date for assets and liabilities measured at fair value on a recurring basis. The following tables summarize assets measured at fair value at period end.

	March 31, 2024				Total Fair Value
	Fair Value Measurement Using				
	Level 1	Level 2	Level 3		
Recurring assets					
Assets held in trust funds	\$ 1,125	\$ –	\$ –		\$ 1,125
Nonrecurring assets					
Nonaccrual loans	\$ –	\$ –	\$ 748		\$ 748
Other property owned	\$ –	\$ –	\$ 150		\$ 150

	December 31, 2023				Total Fair Value
	Fair Value Measurement Using				
	Level 1	Level 2	Level 3		
Recurring assets					
Assets held in trust funds	\$ 1,175	\$ –	\$ –		\$ 1,175
Nonrecurring assets					
Nonaccrual loans	\$ –	\$ –	\$ 950		\$ 950
Other property owned	\$ –	\$ –	\$ 165		\$ 165

Valuation Techniques

Assets held in trust funds

Assets held in trust funds, related to deferred compensation plans, are classified as Level 1. The trust funds include investments in securities that are actively traded and have quoted net asset value prices that are directly observable in the marketplace.

Nonaccrual loans

Fair values of nonaccrual loans are estimated to be the carrying amount of the loan less specific reserves. Certain loans evaluated for impairment under FASB guidance have fair values based upon the underlying collateral, as the loans were collateral-dependent. Specific reserves were established for these loans when the value of the collateral, less estimated cost to sell, was less than the principal balance of the loan. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters.

Other property owned

For other property owned, the fair value is generally determined using formal appraisals of each individual property. These assets are held for sale. Costs to sell represent transaction costs and are not included as a component of the fair value of other property owned. If the process uses observable market-based information, the assets are classified as Level 2. If the process requires significant input based upon management's knowledge of and judgment about current market conditions, specific issues relating to the property and other matters, the assets are classified as Level 3.

Note 6 — Commitments and Contingent Liabilities

From time to time, legal actions are pending against the Association in which claims for money damages are asserted. On at least a quarterly basis, the Association assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. While the outcome of legal proceedings is inherently uncertain, on the basis of information presently available, management, after consultation with legal counsel, is of the opinion that the ultimate liability, if any, from these actions, would not be material in relation to the financial position of the Association. Because it is remote that the Association will incur a loss or the loss is not estimable, no liability has been recorded for any claims that may be pending.

Note 7 — Subsequent Events

The Association evaluated subsequent events and determined there were none requiring disclosure through May 9, 2024, which was the date the financial statements were issued.
